WHO WE ARE About OBAIR

Since 2009,OBAIR is a large - scale national high - tech enterprise in the field of purification air - conditioning, integrating R & D, production, sales, and service. It has dozens of branches and offices across the country. OBAIR's presence can be found in various industries, including hospitals, cleanrooms, pharmaceutical factories, electronics, tobacco, coating, photovoltaics, new energy, semiconductors, and laboratories.

	2.9 Billion USD (2024 Revenue)		1100⁺ Global Employees
	200⁺ Global R&D Engineers		1 Factories
	100⁺ International Patents		87 Countries

Since 2009

OBAIR has a number of products that have received energy-saving certification

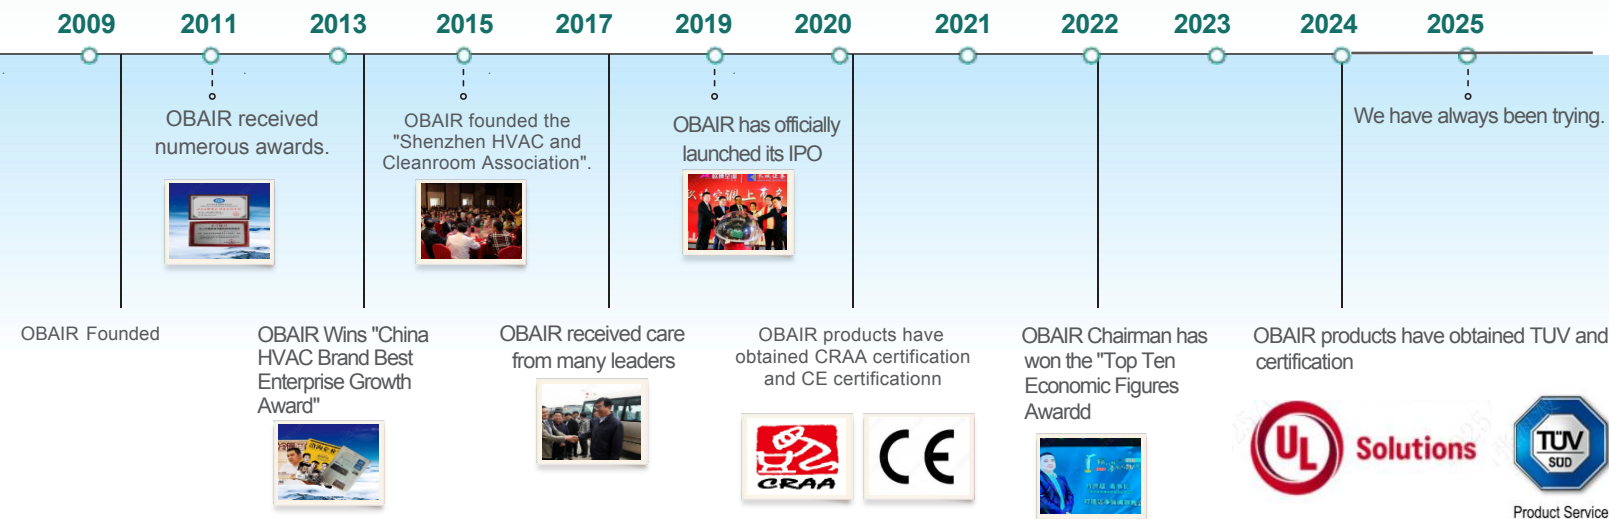

OBAIR has multiple products that have received the energy efficiency label

OBAIR products have obtained 3C certification

OBAIR products have obtained AHRI certification

WHERE WE GO

WHERE WE ARE

OBAIR has actively expanded overseas, setting up offices in Vietnam, Thailand, Indonesia, and Kazakhstan, enhancing its global presence. These moves enable better local customer service and global synergy, boosting the brand's international influence and competitiveness. Going forward, OBAIR will continue working towards its vision of "Being the World's OBAIR", advancing its global strategy, and delivering superior products and services to clients worldwide.

WHAT WE CAN

OBAIR has significant strength in the global manufacturing field, with production facilities covering an area of 170,000 square meters, providing a solid foundation for a future-oriented sustainable production system.

Digital Operation
Sustainable Development
Replicable Solution

 | Intelligent Manufacturing

 | Digital Factory

 | ESG Orientation

- Intelligent Manufacturing and Delivery
 - Intelligent Quality Management
 - Intelligent Warehouse and Transportation
 - ERP/BPM
- Data Interconnection and Interoperability
 - Real-time Data Transmission
 - Central Command System
 - Plant Digital Twins
- Clean Energy
 - Real-time Display of Carbon Emission Management
 - Intelligent Fire Protection
 - Safety and Risk Management & Control

WHAT WE CAN

OBAIR possesses top-tier central air conditioning testing equipment globally.

International Certification

Laboratory

2000 kW water - cooled test bench 7000 kW water - cooled test bench 2100 kW comprehensive laboratory The industry's largest airflow testing device

10

WHAT WE CAN Application Fields of Units

New Energy

The preferred supplier for global new energy companies.

Shopping Mall

5000+ Shopping malls and hotels

Medical & Testing

3000+ Grade 3A&2A Hospitals

Food and beverage

4000+ FOOD FACTORY

Biopharmaceuticals

5000+ GMP Certified Biopharmaceutical Factories

Landmark

The preferred supplier for global landmark buildings.

Rail Transit

50+Subways

Microelectronics

2000+ Semiconductor Factories

11

WHAT WE CAN Application Fields of Units

OBAIR CLIMATE SOLUTIONS CUSTOMER

PHILIPS	LENS	SKYWORTH	OFILM
			
GEELY	DESAY	RISEN	JINKO
			

OBAIR CLIMATE SOLUTIONS CUSTOMER

Trina Solar	TCL	SEMCORP	CATL
			
HuaWei	BYD	Foxconn	Sony
			

Modular Air Handling Unit

Modular Air-Cooled Scroll Chiller (Heat Pump)

Four - pipe Modular Air-cooled Chilled Water (Heat Pump) Unit

Medical Direct Expansion Air Handling Unit

Jet air conditioning unit

Cabinet Fan Coil Unit

Box - Type Ventilation Unit

Vertical air handling unit

WHAT WE CAN Obair product series

All-in-one Evaporative Chiller

desiccant wheel dehumidifier

Water-cooled Centrifugal Chiller

Low ambient temperature
air-cooled large scroll unit

Screw water-cooled low-temperature freezing unit

Integrated Water-Cooled Screw Chiller

Water-Cooled Screw Chiller

HOW WE SUSTAIN

In promoting sustainable development, we integrate Environmental, Social, and Governance (ESG) principles into our core strategy, ensuring economic growth accompanies positive environmental and social impacts.

Environmentally, we reduce carbon emissions, boost energy efficiency, use clean energy, and optimize production. We focus on recycling, waste reduction, and advancing eco-friendly technologies.

Socially, we support educational and health initiatives, improve employees' conditions and benefits, and ensure a transparent supply chain. We collaborate with suppliers and encourage staff to join environmental activities.

Governance-wise, we have a robust corporate governance structure for transparent decision-making. We strengthen internal oversight, manage risks, and prevent corruption. We also enhance information disclosure and engage with international ESG standards.

Through these efforts, we aim to achieve corporate sustainability and create a brighter future.
